28th November 2011

To All Those Concerned

Information Concerning the Restoration Situation from the Flood Damage in Thailand

Due to the recent catastrophic flooding which struck Thailand, two of our subsidiary companies located in the Ayutthaya Province of Thailand were damaged, and their operations were suspended since 12th October. We would like to report that production has been resumed for a part of the operations at MEKTEC MANUFACTURING CORP. (THAILAND) LTD. as mentioned below.

We sincerely apologize for causing much concern to our customers and business partners due to the recent flood disaster and at the same time, we express our heartfelt appreciation for tremendous support received from every perspective.

1. MEKTEC MANUFACTURING CORP. (THAILAND) LTD. (MMCT)
   - (1) Location: Within Bangpa-in Industrial Estate, Ayutthaya Province
   - (2) Business Overview: Manufacture of FPC
   - (3) Production Situation
     From today (28th November), production has resumed in a part of the operations, as follows:
     a. FPC after-processing
     b. Mounting process
   - (4) Outlook for the future
     Regarding our manufacturing processes, we are working wholeheartedly toward recovery activities. Our production will be resumed and activities and efforts are being made toward complete recovery by March 2012.

2. NOK PRECISION COMPONENT (THAILAND) LTD. (NPCT) (no changes)
   - (1) Location: Within Bangpa-in Industrial Estate, Ayutthaya Province
   - (2) Business Overview: Manufacture of Rubber Parts for HDD and Plastic Parts, Manufacture of Mobile Phone Parts
   - (3) Production Situation
     We are working wholeheartedly toward recovery. By February 2012, production will be resumed in a part of the operations and activities and efforts are being made toward complete recovery in April 2012.

In addition, regarding the product supply to our customers, production in both plants, and alternate production will also continue in our other production bases located in Japan and China, etc.
